Building In The Building

Nature's stalactites inspired the designer to create the stalactite chair. The chair cleverly combines the shape of stalactites, with the soft body showing the beauty of softness and strength. The U-shaped metal base draws on its hanging fulcrum, which not only improves comfort but also gives the chair a sculptural artistic feel. It makes you feel like you are in the embrace of nature.

The designer skillfully refined the contour line of the human back into three simple lines, which are applied to the soft bag design, so that the product is comfortable to use and has both modern and classic characteristics. The metal NC bending process of the whole pipe of Line sofa is combined with the soft bag, which has more retro characteristics. The solid wood designer of Line sofa adopts the design method of integrating armrest and leg support, which makes the point, line and surface modeling language more distinctive, and the wide armrest is more comfortable.

## INTRODUCING LINE

## DESIGN BY COLLECTIVO

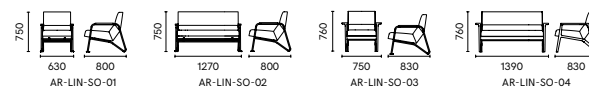

The metal style of Line sofa can be integrated into business negotiation, corridor, leisure and relaxation scenes. The wooden sofa is more applicable, not only for business space, but also for family space.

Tang costume is a modern traditional Chinese costume. It draws on western tailoring concepts and Chinese cultural elements, and shows the characteristics of openness and tolerance of Chinese culture and the upward spiritual outlook of Chinese in the new era. The inspiration for the collar series comes from this traditional Chinese costume-Tang costume. Collar series combines the characteristics of Tang costume: Standing collar, double breasted collar and buckles add Chinese style and western style elements to the collar series. In addition, the collar table body adopts steel plate bending process and cloth treatment to meet the needs of modern industrial production.

The inspiration for the panel tea table comes from the concept of the harmony of Yin and Yang in Tai Chi. The design of the product fully draws on the wisdom of the industrialized era and shows the designer's precise consideration of the material utilization rate. The tea table as a whole is combined by two panels and then used together with the table top, and the panels supporting the feet are divided into two pieces of Yin and Yang, which are engaged with each other to maximize the utilization rate of the panels. The panel tea table is made of MDF board through powder spraying process, which has the advantages of high strength, high stability, etc. The use of hidden hardware ensures the appearance design of Plank panel tea table while improving the stability. The tea table can be kept stable without deformation.

The shape design of the whale cushion was inspired by the marine creature whale. The upturned ends of the cushion perfectly show the smooth body curve of the whale. The design of the sitting surface adopts the belly stripes of whales and is interpreted by modern techniques. A cushion with unique appearance and strong design feeling has been created. For centuries, whales have often been used as raw materials for table delicacies or industrial products, which has led to a sharp decline in the number of whales. Whales have become an endangered species. Through the power of design, designers hope to appeal to more people to pay attention to the current situation of whales and arouse people's sympathy to protect nature's creatures. In the choice of fabric, the whale cushion is embossed with fabric, and the feeling of blocking and soft touch brought by stroking brings different experiences to users.

In history, macaroon was a noble food and a symbol of luxury. With the development of history, it has gradually entered the life of the public and won people's love with its colorful color, fresh and delicate taste and small and exquisite shape. By borrowing elements from macaroon, the designer created this delicate and lightweight cushion. The design of the cushion zipper makes the cushion unique. The cushion can be removed and cleaned or the cushion cover can be purchased again, thus prolonging the service life of the product. In addition, the zipper design makes it easy to take off and portable, enhancing the interaction between people and product. The double-piping design of the cushion makes the cushion more delicate and improves the quality of the product. The overall shape of the cushion is round, which is the basic cushion needed in the market. It is different from the same type of products in the market in that it combines the two-color design of macaroon elements to enrich product details. The light-weight shape allows macaroon to be scattered at will or placed in groups of three or two to meet different needs and become an ornament for public spaces such as leisure and training.
